Research Interests

Tropical forest ecology, modification of the environment after deforestation, integrated approach, Machine Learning, eDNA

Education

University of the Sunshine Coast PhD in Forestry Studies Thesis: “The effect of reforestation using <i>Acacia mangium</i> on above- and belowground ecosystem properties” Principal Supervisor: Professor D. Lee; co-supervisors: Professor R. L. Chazdon, Professor A. Shapcott, Dr. A. A. Catling	Nov. 2023 – Present Thesis under school revision
University of Parma Master’s Degree in Ecology and Ethology for nature conservation Thesis: “The Colombian socio-ecological system: dynamics of deforestation between conflicts and conservation”. Final grade: 110/110 cum laude and Honorable Mention Supervisor: Professor A. Bodini, co-supervisor: Dr. N. Clerici	Sept. 2021 – Jul. 2023
University of Ca’ Foscari, Venice Bachelor’s degree in Environmental Sciences Thesis “Abiotic stresses mitigation by NK fertilizer on seeds of ancient cereals”. Final grade: 110/110 cum laude Supervisor: Professor G. Buffa; co-supervisor: Dr. M. Roscini	Sept. 2018 – Jul. 2021

Work Experience

Ecological Society of Australia Lead Convenor of Special Interest Network "Integrated Forest Restoration"	Dec. 2024 - Present
University of the Sunshine Coast High Degree by Research Student Representative on the Forest Research Institute (FRI) Leadership Group	May 2025 – May 2026
University of the Sunshine Coast Teacher assistant for “Discovering Science”	Feb. 2024 – Jul.y 2024
University of Parma Teacher assistant for “Biological laboratory techniques (Ecology module)”	Oct. 2022 – March 2023

Selected publications

- **Vivian, J.**, Chazdon, R. L., Shapcott, A., & Lee, D. J. (2025).
Toward a deeper understanding of recovery trajectories in forest ecosystem restoration: a machine learning approach. *Restoration Ecology*, e70483
- **Vivian, J.**, Chazdon, R. L., Catling, A. A., Shapcott, A., Herbohn, J., & Lee, D. J. (2026).
Acacia mangium monocultures can catalyse the recovery of the tree community and aboveground carbon stock in the Philippines. *Forest Ecology and Management*, 601, 123357
- **Vivian, J.**, Scriver, M., Zaiko, A., Shapcott, A., Chazdon, R. L., Catling, A. A., & Lee, D. J. (2026).
Recovery of soil microbiota in naturally regenerating *Acacia mangium* ecosystems. *PeerJ* 14:e21048
- **Vivian, J.**, Chazdon, R. L., Catling, A. A., & Lee, D. J. (2025).
Early evidences of links between soil microbes and forest restoration through multiple ecosystem metrics. *Frontiers in Forests and Global Change*, 8, 1540513
- **Vivian, J.**, Shapcott, A., Chazdon, R. L., & Lee, D. J. (2026).
Microbial rhizosphere and topsoil communities in young reforestation plantations. *Frontiers in Microbiology*, in press.
- Catling, A. A., Derisso, V. D., Gamalo, L. E. D., Herbohn, J., McRae, C. L., Mooney, M. G., **Vivian, J.**, & Putz, F. E. (2026).
Logging legacies in the Australian tropics: 56-years of skid trail recovery. *Forest Ecology and Management*, 619, 124075

- Bodini, A., **Vivian, J.**, Vargas, J., Clerici, N., & Scotti, M. (2024).
The web of conflict-related interactions in Colombia: exploring causal linkages between ecological and social variables by the qualitative loop analysis.
Philosophical Transactions B, 379(1909), 20230165

Interests and Competences

Languages	Italian (Mother tongue); English (TOEFL iBT, with a score of 108/120, corresponding to a C1; 22-10-2022)
Programming and software skills	R, QGIS, Python, LaTeX, Past 4.03, basics of “Weka”
Driving licenses	A2-B (Italy); C-RE (Australia)

Awards and Honors

• Grant “Quantum and Advanced Technologies Talent Building Program” for the development of research on merging quantum computing in ecology, from the Queensland Government	20,000 AUD	Oct. 2025
• Culture Champion Award for “outstanding contributions helping to build and nurture the caring, supportive culture in the workplace”	50 AUD	Aug. 2025
• Prize for the development of my research (from 1 st place in the 3-minute thesis competition at Forest Research Institute of the University of the Sunshine Coast	500 AUD	Jun. 2025
• Travel bursary for Australian & New Zealand Environmental DNA (eDNA) Conference (Wellington)	2300 AUD	Feb. 2025
• Partial travel funding for Society of Ecological Restoration conference (Denver)	200 USD	Oct. 2025
• Travel Award from the Ecological Society of Australia, for ESA conference (Melbourne)	150 AUD	Dec. 2024
• Travel Award from the Theo Murphy Initiative (Australia) administered by the Australian Academy of Science, Ecological Society of Australia, Plant-Soil Ecology Special Interest Network, to attend the ESA conference and workshops (Melbourne)	1000 AUD	Dec. 2024
• Scholarship for Master’s degree (2023) final grade, from the local authority	500 EUR	Jan. 2024
• Grant to participate in the Blended Intensive Programme “Towards a Sustainable Water Management” at the University of Extremadura, financed by ERASMUS+ SMS Short Mobility Grant, managed by the University of Parma in accordance with ERASMUS+ National Agency	Total cover	Jun. 2023
• Grant to participate in the “International Summer School-Pollutions in Coastal Areas” at the University of Gdansk, from the project itself, financed under the Knowledge Education Development Operational Program of the EU Commission	Total cover	Sept. 2022
• Scholarship of merit, 2 nd place, year 2018-2019, from Ca’ Foscari University of Venice	1000 EUR	Mar. 2020

Conferences and Presentations

• Forestry Australia Conference: presentation “Trajectories of forest ecosystem recovery with <i>Acacia mangium</i> in the Philippines: what made it a successful story”	Adelaide, Oct. 2025
• World conference on ecological restoration (SER2025): presentation results “Can <i>Acacia mangium</i> plantations develop properties of remnant forests? A Machine Learning perspective”	Denver, Sept. 2025
• International Conference on Conservation Biology (ICCB): presentation “Recovery of tree communities and above-ground carbon stock in <i>Acacia mangium</i> reforestation sites”	Brisbane, Jun. 2025
• Australian & New Zealand Environmental DNA (eDNA) Conference: presentation “Evaluating soil fungi and bacteria in <i>Acacia mangium</i> plantations and remnant forests in the Philippines using environmental DNA”	Wellington, Feb. 2025
• Ecological Society Conference (ESA): poster presentation of early results	Melbourne, Dec. 2024
• University of the Sunshine Coast Showcase: poster presentation “The effect of reforestation using <i>Acacia mangium</i> on above- and below-ground ecosystem properties”	Sippy Downs, Sept. 2024
• Airborne eDNA workshop (attended online): presentation “Air DNA analysis and Machine Learning: a promising collaboration”	Canberra, Jun. 2024
• Climate Exp0 (Online): presentation “Sustainable agriculture approaches”	May 2021

Relevant Accomplishments

Admitted to the PhD Program in Ecology at the University of Zurich/ETH Zurich in 2023. No PhD positions were available at the time.
